

## THE STORY

Our high performance cut resistant gloves were developed to minimize the spread of disease-carrying microorganisms that cause foodborne illness.

Item #CP1019SS  
Medium weight, 10 gauge

## BENEFITS

- ▼ AlphaSan® antimicrobial treatment minimizes cross-contamination by incorporating silver ions into the fibers of the glove
- ▼ Reduces laceration injuries with high performance stainless steel & Spectra® Guard fibers
- ▼ Soft feel and comfortable fit increases employee usage

## FEATURES

- ▼ Cut Resistance (ASTM F2992-2015): ANSI 105-2016 Cut Level 5
- ▼ FDA accepted antimicrobial treatment pursuant to Food Contact Notification #00001
- ▼ AlphaSan antimicrobial compound is a permanent treatment and does not wash out
- ▼ Complies with 21 CFR, 170-199 for direct food contact
- ▼ Conforms to CFR 13 & HACCP for lead content
- ▼ Pigments in dyed yarns comply with EU Type 8081 & 8082
- ▼ Ambidextrous five finger design
- ▼ Launderable
