

THE STORY

Our CrewSafe Utility Knife was developed as a safe alternative to standard utility knives, minimizing loose razor blades in the workplace and reducing product contamination

Item #XSCU-03101

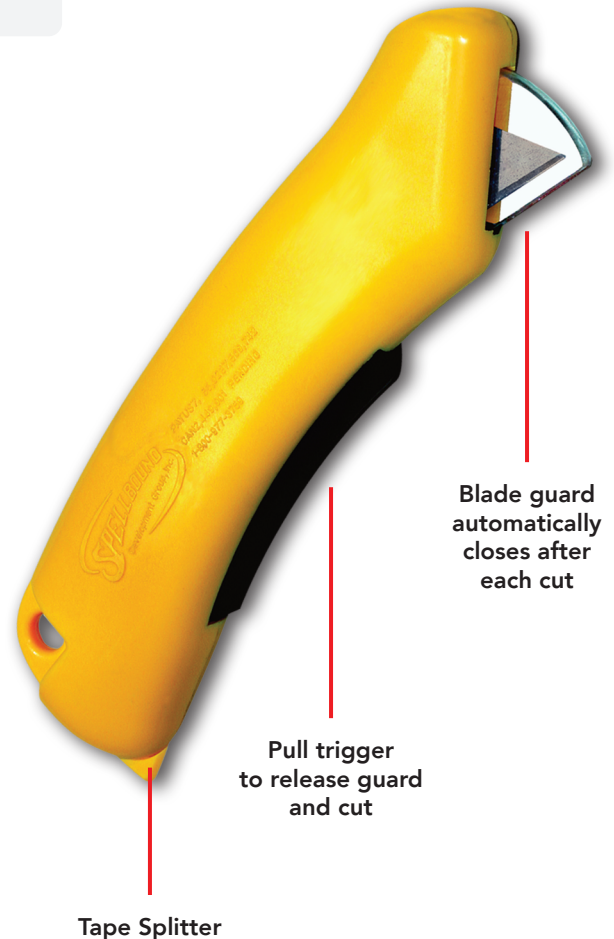

BENEFITS

- ▼ Designed to protect users and people nearby from being injured when a blade slips off the surface being cut
- ▼ Reduces the medical, legal and lost time costs associated with employee and customer laceration injuries
- ▼ Minimizes product contamination associated with loose blades in the workplace

FEATURES

- ▼ Patented blade guard system protects users by automatically closing & locking after each cut
- ▼ Blade guard remains locked until trigger is pulled to release it
- ▼ Stainless steel blade resists corrosion and breakage
- ▼ FDA compliant, food-safe materials
- ▼ Non-fatiguing, lightweight handle
- ▼ Tape splitter safely and easily opens taped boxes
- ▼ High visibility color
- ▼ Serial numbering available
