

One Pull, One Cut

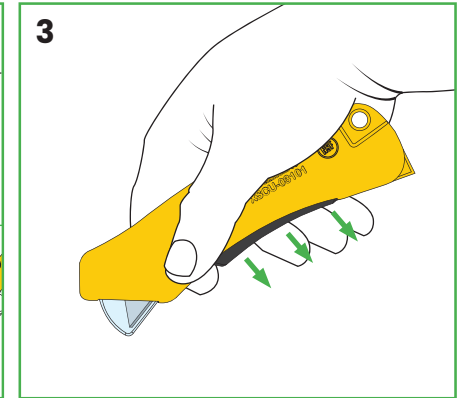

TO USE

PULL and **HOLD** trigger. This unlocks the guard.

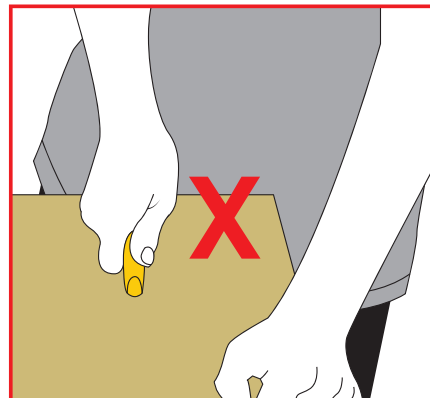

CUT. After cut, the guard automatically covers the blade and **LOCKS** again.

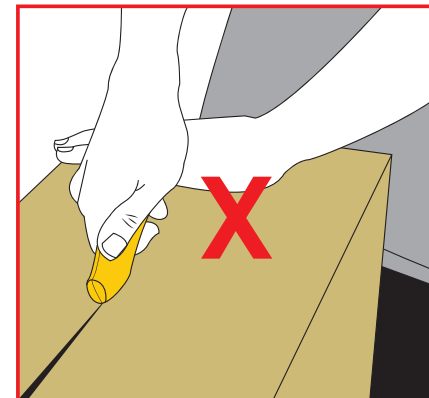

RELEASE trigger. **REPEAT** steps #1-3 to perform another cut.

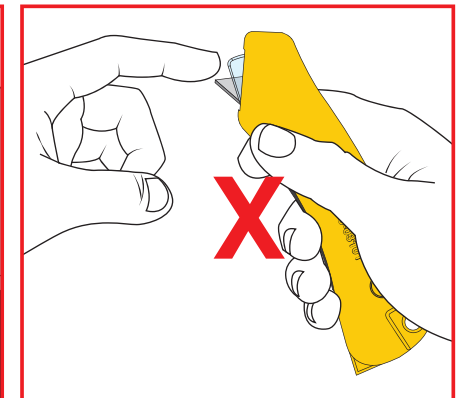

DO NOT

NEVER cut toward any part of your body.

NEVER place hand in the path of your cut.

NEVER change the blade, modify the knife, or manually retract guard.

NOTICE OF DISCLAIMER OF LIABILITY End user is responsible for testing and ensuring Spellbound Development Group, Inc.'s ("SDG") products are safe, meet all safety and operational requirements, and comply with local, state, federal laws, codes, and company policies. DO NOT USE if the product does not meet these requirements. Ensure proper training is in place before use. SDG provides no express or implied warranties that products eliminate injuries, health hazards, or accidents. Consult professionals for safety and loss prevention advice.

CAUTION: Sharp Blade. Do not use the knife if the blade becomes dull. Dispose of and replace the knife. Cut protection features reduce, but do not eliminate, the potential for laceration injuries. When handling sharp tools, always use approved personal protective equipment (PPE) in accordance with your company's policies and procedures.
